MEMORANDUM FOR: Comptroller

FROM: Harry E. Fitzwater  
Deputy Director for AdministrationSUBJECT: Reprogramming of FY 1983 Funds 

25X1

1. Your approval is requested to reprogram \$550,000 of Office of Logistics funds from the Real Estate and Construction Division (RECD) (FAN 78-1126, SOC 2501) to the Logistics Integrated Management System (LIMS) project in order to maintain the LIMS long-range development schedule through FY 1985 and beyond. The availability of these funds results from refinement of scope definitions for various project activities such as the Headquarters chilled water riser, and various utilities studies and installations in outlying buildings in the Metropolitan Washington Area.

25X1

2. Failure to continue at the current rate of progress would delay the implementation of the LIMS system and result in a considerable increase in total project cost. Current data processing systems on which the Offices of Logistics and Finance rely are no longer able to meet the requirements being levied upon them in terms of responsiveness and accuracy. Without LIMS, both offices will find it increasingly difficult to meet the demands being placed upon them in the areas of contracting, supply, and prompt payments during this period of substantial Agency growth. In addition, any delay in the current schedule will naturally increase personnel and overhead costs over the life of the project. For these reasons, it is imperative that LIMS continue during FY 1984 at its current rate of development. Fortunately, once this period is passed,

adequate funds are included in the OL FY 1985 program for the continuance of the program at adequate funding levels. It should also be noted that the FY 1983 funds requested for reprogramming can be legally applied to FY 1984 requirements of this contract.

25X1

3. Your approval of this request is urgently solicited.
